Subject: Agenda of Caretakers meeting to prepare for FIA Stockholm

Objectives of the meeting:

- To be informed about progress in Future Internet related activities
- To review the objectives, agenda (with speakers) and confirm the leaders of each session on the FIA Stockholm, and establish a list of actions to further prepare it. Since this meeting is with the caretakers I have put the name of the representative caretaker to present the status on this meeting. The real leaders of the session can differ from the caretakers.
- To understand whether FIA Valencia should have a similar format as FIA Stockholm. How to balance the risk that the extra 9 sessions create more fragmentation than integration?
- Do we need follow up meeting on 16 October?

18 September 11.00 – 16.00 h.

Avenue de Beaulieu 33, room 0/58
